

SUGGESTED MNEMONIC ABOUT THE KEY AREAS TO REMEMBER TO COVER IN THE CEQ:

In all Essays:

Spelling & grammar (SPAG - competency in writing professional English)

Introduction (also grasp and evaluation of quote)

Accuracy (arguments, references etc. must be factual, not incorrect)

Reasoning (Critical reasoning – arguments make sense, are organised)

POV (must be more than one POV)

Breadth (must cover at least 2 of: other sciences, non-biological holistic models, historical, cultural examples, etc.)

Ethical issues (always include)

Conclusion (there must be one, with no new info, where you state your conclusions about the statement made in the quote)

Optional extras:

Recovery principles/issues - only if relevant to the quote

Clinical context - only if relevant to the quote

Example of a mnemonic for the above:

SPAG In Accurate Reasoned POVs Broadens Ethical Conclusions (Recover Clinically)

Or SIARPBEC (RC)
